

April's President's Message

Welcome everyone to your 2020 April Newsletter.

I hope you and your families are all safe and healthy. As you all know we are in the midst of a worldwide pandemic and need to do our part by staying home and only going out when absolutely necessary.

I want to let you all know that I am thinking of you all and that with some strict controls we will pull out of this situation with no one getting sick or harmed in any way.

So, remember, wash your hands often, cover your face with a face mask when it is necessary to go out in public. Also wear glasses to prevent the virus from entering your eyes.

If we all pull together hopefully this situation will go away and never come back and we can resume a normal life.

Till next time, stay safe!

Peace,

Larry
