

Chapter 296 December 2020 News Update

Hello again. I just wanted to update everyone on our virtual meeting that was scheduled for December 15th. Unfortunately, due to lack of a speaker, the meeting is cancelled. But I do have some good news. January 19th is our next virtual meeting, and we have a speaker scheduled and ready to go.

The speaker will be Dr. Stacy Mandras. She will discuss heart failure and diabetes. That topic certainly pertains to many of us. Dr. Mandras is Board Certified in cardiovascular disease, advanced heart failure and transplant cardiology. She practices at Advent Health Hospital.

During our meeting, we have significant changes made by National to talk about. Next year we will also be holding National Elections.

In the December President's message, I mentioned Chapter Dues would be collected each January 1st. Well with some of National's changes that is no longer accurate. Here is the correct information just received from National: *"Starting January 1, 2021, the chapters and groups will be reimbursed 25% of all paid national dues. In consideration of this 25% payment, the Board eliminated chapter/group dues. The maximum chapter dues are now \$0.00; thus, chapter dues are eliminated."*

In closing, Joan and I wish you and all of your families a happy, Safe Holiday Season

See you on January 19th at 7pm.

Peace,

Larry Sartori
