

Holiday Greetings

Mended Hearts™

Chapter 296 December 2020

President's Message

Welcome everyone to your December President's message. The Holiday Season is upon us although this year it is going to be quite different from other years. We are still experiencing a large number of COVID-19 cases so our plans will be quite different. But the good news is a vaccine soon will be available for distribution. Scientists have worked around the clock to provide us with a safe efficient vaccine to guard us against COVID-19.

Some National Mended Hearts National News... Next year will be our 70th Anniversary as a premiere cardiovascular patient support organization and National will be hosting a contest called, "Share Your Heart". Heart patients, care givers, family members and health care professionals are all invited to show how they share their hearts through pictures or videos. For more information National will have it on their website. Sounds like a fun thing to do!

Starting in January our Chapter Dues (Family \$15; Individual \$10) will be due every January 1st. Those of you who have recently paid will have the amount due prorated. You will all be receiving a notification in the coming week.

This month we are trying to get a guest speaker for our planned December Zoom meeting. It is not easy right now since the healthcare workers are all terribly busy. So, stay tune for further development. Want to thank Sharry for her work in trying to provide a speaker for our meeting.

Happy Birthday this month to:

Carl Pain 12/8

Fred Gamble 12/8

Hans Frankfort 12/13

Cardiac Anniversaries:

Bill Cekala 12/8/2015

In conclusion I wish everyone a Happy Holiday Season. Stay safe, wear a mask when outside your home, wash your hands frequently, eat healthy, exercise and I hope we will meet in person sometime soon.

All my friendship and peace to everyone. Till next time.

Larry
