A Message from our President, Larry Sartori

Welcome everyone to your November Mended Hearts Newsletter.

I hope you are all are doing well. This year seems to have gone by so fast,

As I write this letter, we are about to have another weather episode of heavy rain and strong winds. Let's pray that it passes fast and no one is impacted by it.

November is the gateway to the Holiday Season starting with Thanksgiving followed by the rest of the festivities.

We just received a confirmation on our guest speaker, Melisa Wilson, Nurse Practitioner specializing in pulmonary hypertension at Advent Health Hospital. I hope you all can join in our Zoom meeting on 11/15 at 7pm.

We are in need of more patient visitors for Advent Hospital. Please think about becoming a patient visitor. You will find it a very rewarding experience.

Give thanks this year for all our blessings. Enjoy the holiday with friends and family.

Don't forget our annual Holiday Party on 12/4 being held at Carrabba's Italian Restaurant. Look for upcoming information on this.

This January we plan on having our meeting in person, starting at Advent Health Hospital.

In closing, enjoy our soon-to-be cool weather. Stay happy and healthy.

Peace,

Larry

Volunteering is good for business, good for you

A body of research shows that helping others can significantly reduce stress and enhance personal health. This helping requires personal contact with those helped, repetition at least every other week, and involves helping strangers rather than people you know. Such volunteers, scientists say, are focusing outside of themselves.

Right now, only about 13 percent of Americans help others face-to-face. Lack of time is the most common reason given. A survey by Big Brothers Big Sisters in New York, however, shows no difference in the amount of time spent on working or leisure between volunteers and non-volunteers of similar backgrounds.

A few people are self-starting volunteers, but most people say they considered volunteering for years before they did it.

A survey by Spirituality & Health magazine shows that a majority of Americans would become person-contact volunteers if they could do it while at work. Others would do it if they received health insurance deductions.

If cash thou art in want of any,
Dig 6 feet deep;
And thou wilt find a Penny.

And the Lord sent them manna.
Old clerk Wallace wanted a wife,
And the Devil sent him Anna.

Under the sod and under the trees,
Lies the body of Jonathan Pease.
He is not here, there's only the pod.
Pease shelled out and went to God.

VOLUNTEER OPPORTUNITY

HOSPITAL VISITORS We are in need of people who are willing to visit heart patients at both Orlando Health and AdventHealth Hospitals. Online and in-person training is provided. Flexibility on scheduling is also available. Visiting folks after their heart procedures is a very heart warming experience. If you are interested in helping, please contact Mike Weber, Chapter 296 Visiting Chair, at 407-701-9469.

November is American Diabetes Month

Prediabetes affects heart disease, stroke risk. Also called impaired glucose tolerance or impaired fasting glucose, prediabetes is defined by blood sugar levels that are higher than normal, but not yet in the diabetic range.

According to the Centers for Disease Control and Prevention (CDC), normal fasting blood sugar is 99 mg/dL or lower. Fasting blood sugar of 100 to 125 mg/dL indicates prediabetes.

About 38 percent of Americans over the age of 18 are now classified as prediabetic. Most of these people are not aware of their condition.

Early diagnosis is important. Cardiovascular disease, which is the primary cause of death among people with diabetes, begins to develop in the prediabetic phase. The risk can begin to climb for 15 years before type 2 diabetes is diagnosed.

Unless people with prediabetes take steps to reduce their risk, 5 to 10 percent of them will develop type 2 diabetes each year. Within 10 years, up to half of them will progress to full-blown diabetes, a leading cause of blindness, kidney failure, amputations, and premature death from heart disease, according to the National Institutes of Health.

In The News

Medicare Part B premium decreases

The Medicare Part B deductible and premium will be lower in 2023. In 2022, the standard monthly premium for Medicare Part B was \$170.10. In 2023, the premium will be \$164.90. That is a \$5.20 decrease.

This very unusual decrease was due to savings on one Alzheimer's drug. In 2022, Medicare Part B had one of the largest year-over-year percentage increases in history (14.5 percent), a figure that ate into the Social Security cost of living increase.

Medicare Part B covers physician services, outpatient hospital, and some home and health services. It may also cover medical equipment and some health services.

Medicare Part A deductible increases

If you are hospitalized, the Medicare Part A deductible will be higher in 2023. In 2022, the deductible was \$1556. In 2023, the deductible will be \$1600 -- a \$44 increase.

Medicare Part A covers inpatient hospital services, skilled nursing, hospice, inpatient rehabilitation, and some home health care services.

Social Security COLA: Why isn't it enough?

Your money just doesn't go very far lately. Some experts say the purchasing power of Social Security has dropped 40 percent since 2000.

According to The Senior Citizens League (TSCL), ~~for every \$100 of goods and services that re-~~ tirees bought in 2000, today they would only be able to buy \$60 worth. The cost-of-living adjustment (COLA) has not kept up with inflation. The cost of goods and services has risen by 130 percent, twice the rate benefits have increased.

With the 2023 COLA, the increase announced in October was more than 8 percent, one of the largest increases in Social Security for many years. Along with decreases in the premiums for Medicare Part B, seniors were expected to see at least some increase in their income. With inflation still trending up, this still may not be enough.

But why doesn't Social Security really keep up with inflation? Part of the reason is how it is calculated using the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W). But, urban workers don't spend money the same way as seniors, according to The Motley Fool. Seniors, who are usually retired, spend more on housing and medical care than working people. The CPI-W gives more weight to things like transportation, food, education and clothing.

Both parties in Congress agree that this is a problem, but they haven't agreed on a solution.

Raking leaves? You might be missing a treat

Autumn leaves are a beauty -- and a chore — to rake in autumn, but in Japan's city of Minoh, they are also a snack.

According to legend, around 1,300 years ago, a traveler to the Minoo Taki waterfall in Osaka's Hokusetsu region was so enamored of the beauty of autumn maple leaves that naturally, he decided to fry them. Thus, new treat was born.

Maple leaves are picked from the tree, soaked in salt water for a year, then coated with a tempura batter, sesame seeds and sugar before they're fried in oil.

The first maple leaf store opened in 1910 in Minoh, 10 miles north of Osaka.

Rosemary Balsamic Roasted Vegetables

Ingredients

- Cooking spray
- 1/2 pound Brussels sprouts, brown ends trimmed off and cut in half
- 1/2 medium cauliflower (cut into florets)
- 4 medium carrots (sliced)
- 1/2 pound turnips (peeled, cut into 1/2-inch cubes)
- 1/2 pound beets (peeled, cut into 1/2-inch cubes)
- 1/3 pound sweet potatoes (peeled, cut into 3/4-inch cubes, optional)
- 3 tablespoons balsamic vinegar
- 3 teaspoons extra-virgin olive oil
- 2 teaspoons no-calorie sweetener (granulated)
- 2-3 tablespoons fresh, chopped rosemary
- OR
- 2-3 teaspoons dried rosemary
- 2 medium garlic cloves, minced
- 1 teaspoon onion powder

- 1) Preheat the oven to 375°F.
- 2) Lightly spray 13 x 9 x 2-inch baking dish with cooking spray.
- 3) Place all the vegetables in a large bowl.
- 4) In a small bowl, whisk together the vinegar, oil, no-calorie sweetener, rosemary, garlic, onion powder, pepper and salt. Pour over the vegetable mixture, tossing to coat.
- 5) Pour the vegetable mixture into the baking dish. Bake for 30 to 35 minutes, stirring once, or until all the vegetables are tender when easily pierced with a fork.
